

- Kills bed bugs and bed bug eggs
- Formulated to kill pyrethroid-resistant bed bug strains
- Kills all bed bug life stages by contact
- Accepted for direct application on mattresses
- Multimode action and control

KEEP OUT OF REACH OF CHILDREN

See inside for precautionary statements.

ACTIVE INGREDIENTS:

Clothianidin	0.40%
Metofluthrin.....	0.01%
Piperonyl Butoxide*	1.00%
OTHER INGREDIENTS:	98.59%
	100.00%

*(butylcarbityl) (6-propylpiperonyl) ether and related compounds

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

USE RESTRICTIONS:

- FOR INDOOR USE ONLY
- THIS PRODUCT IS NOT FOR USE ON HUMANS OR ANIMALS.
- Do not use in commercial food/feed processing, preparation, and food/feed storage or serving areas.
- In residential areas, all food/feed processing surfaces and utensils must be covered during treatment, or thoroughly washed before use. Cover or remove exposed food/feed.
- Remove pets, birds and cover fish aquariums before spraying.
- DO NOT allow adults, children or pets to enter treated area until sprays are dry.
- DO NOT apply to plants or crops.
- DO NOT treat areas when occupants are present.
- DO NOT apply as a space spray.
- DO NOT wet articles to the point of runoff or drip.
- DO NOT use treated articles until spray has dried.

SHAKE WELL BEFORE EACH USE

This product will not stain water-safe fabrics and surfaces, however care should be taken to test an inconspicuous area for staining prior to use.

HOLD CONTAINER UPRIGHT WITH NOZZLE POINTED AWAY FROM YOU. PRESS VALVE AND SPRAY FROM A DISTANCE OF 8 TO 10 INCHES. SPRAY EACH SQUARE FOOT FOR 5 SECONDS OR UNTIL DAMP. USE THE CONVENIENT APPLICATOR FOR CRACK AND CREVICE TREATMENT.

CROSSFIRE® Aerosol effectively kills bed bugs in residential, industrial, commercial, military and government buildings and structures. **CROSSFIRE®** Aerosol's technology provides residual control for up to one month on unpainted wood surfaces after application and is formulated to target pyrethroid-resistant wild and field, as well as susceptible bed bug strains. **CROSSFIRE®** Aerosol also kills bed bug nymphs and eggs by contact. Apply **CROSSFIRE®** Aerosol as an indoor crack and crevice, spot treatment, or direct spray application (according to application instructions) in non-food areas including but not limited to: homes, hotels, motels, kennels, shelters, modes of transportation, restaurants, schools, hospitals, nursing homes, warehouses, offices, apartments, theaters, mobile homes, factories, grocery stores, dormitories, day care facilities, shelters, rest areas, waiting rooms, garages, new construction, cellulose insulation, cotton batting, industrial transportations such as: buses, taxis, aircraft, trucks, U-Hauls® and moving vans, trailers, recreational vehicles (RVs), recreational buildings, campers, ships, boats, ferries, trains, yachts, cars and animal transportation vehicles. This product will not stain water-safe fabrics or surfaces, however care should be taken to test an inconspicuous area for staining prior to use. This product will extend control to non-chemical temperature dependent methods such as heat treatments.

TO KILL BED BUGS (Adults, Nymphs and Eggs): For best results, vacuuming surfaces is recommended prior to treatment. Spray bed bugs and eggs directly wherever possible. Spray surfaces thoroughly, paying special attention to areas where bed bugs and their eggs hide or harbor, such as in and around non-food areas including on and around baseboards, floorboards, millwork, bed frames, headboards, wall hangings, non-upholstered furniture, door and window frames, walls, closets, window treatments, beneath floor coverings, as well as other non-washable items that may come in contact with bed bugs such as luggage, shoes and backpacks. If treating a pet's living environment, spray on and around pet beds, pet bedding, floors, pet sleeping areas and furnishings. Pet bedding must be washed before reuse. Do not spray product directly on pets. Allow treated surfaces to dry thoroughly prior to being contacted by people or pets.

MATTRESS, CARPET AND UPHOLSTERED FURNITURE APPLICATION:

CROSSFIRE® Aerosol can be directly applied to mattresses and box springs. Infested bed linens must not be treated. These must be removed, tightly sealed in a plastic bag, laundered and dried at high temperatures prior to re-use. Vacuuming surfaces prior to treatment is highly recommended. Spray product directly to mattress surface, paying special attention to seams, folds, tufts and edges, as well as bed frames and box springs where bed bugs harbor. Clean linen must be put on bed prior to reuse.

For use on upholstered furniture, apply product directly to seams, folds, tufts and edges **ONLY**. Do not apply to surfaces that may have direct contact with people or pets. Allow treated areas to dry thoroughly prior to being contacted by people or pets.

When treating carpets, floor coverings or rugs, spray on and around baseboards, floorboards and along edges of carpeting. Apply enough product to get spray coverage to the bottom of the carpet and pad where bed bugs may be hiding. Spray under rugs.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

PERSONAL PROTECTIVE EQUIPMENT (PPE):

Applicators and other handlers must wear:

- Long-sleeved shirt,
- Long pants, and
- Shoes and socks.

USER SAFETY REQUIREMENTS:

- Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.
- Discard clothing and other absorbent materials that have been drenched or heavily contaminated with the product. Do not reuse them.

PHYSICAL OR CHEMICAL HAZARDS:

Contents are under pressure. Do not use or store near heat, sparks or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Keep product from freezing. Do not apply this product in, on or around electrical equipment due to the possibility of shock hazard.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE:

Do not store near heat or open flame. Store in cool dry area away from children. Keep from freezing.

PESTICIDE DISPOSAL:

Waste resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL:

Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. This container may be recycled in an aerosol recycling center. At present, there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label. **If partly filled:** Call your local solid waste agency or 1-888-740-8712 for disposal instructions.

Federal regulations prohibit
CFC propellants in aerosols
